

Sandia National Laboratories FY 2019 Congressional Budget Request (In billions of dollars)

Notes: The percentages are of Sandia's total budget for FY 2019. "Work For Others" is for other than Department Of Energy (e.g., the Depts. of Defense and Homeland Security, FBI, CIA, etc.) and is based on Sandia's past years "Facts and Figures." "Weapons Activities" is funded by DOE's semi-autonomous National Nuclear Security Administration. Forty percent of NNSA's \$11 billion nuclear weapons budget is spent in New Mexico alone.
